```
> cd BillCipher
> python3 billcipher.py
> yes
> website
> www.certifiedhacker.com
> 19
```

- **Website Copier (use httrack)**
    - [HTTrack] allows you to download a World Wide Web site from the Internet to a local directory, building recursively all directories, getting HTML, images, and other files from the server to your computer. HTTrack arranges the original site's relative link-structure.
- Similarly, you can use other information gathering options to gather information about the target.
